Projects

Albright   *Web*

FULL STACK DEVELOPER   *October 2021 - Present*

Albright is a complete LMS system. An institution can run their all kind of programmes through our system. Features like Questioning, Examining, Grading, Grouping, Sectioning, Branching. Managing etc. all are in our system. I have done all the frontend responsibility in it.
Technology: Reactjs, Material-ui. Dajngo, Celery
Link :`https://albrightinstitute.ai-one.io`

Failureline   *Web*

FULL STACK JAVASCRIPT DEVELOPER   *July 2020-February 2021*

Failureline is a blog-type social site that aims to provide a platform where users can document their failures and success stories. These stories can be private and shared so that the world can learn. People can share text, photos, audio, video link in their stories. People who don't want to share their identity can share stories as anonymous. Users can follow people and get notifications on their posting. I develop this from scratch to the end with a single hand under two senior developers' supervision.
Technology :Reactjs, Node.js, Sequelize, Elasticsearch, Material-ui.
Link :`https://failureline.com`

Education

Khulna University   *Khulna, Bangladesh*

BACHELOR OF SCIENCE IN COMPUTER SCIENCE AND ENGINEERING   *Jan. 2016 - jan. 2020*

I have completed my BSc. at Computer Science And Engineering Discipline of Khulna University. I have learned a lot from the university environment and spent the sweetest time of my life here. In these years, I have developed some excellent projects and enrich my knowledge in participating in national events.
CGPA: **3.26 out of 4.00.**
